

Mr Twin Sister: Bio

After growing up together on Long Island, Mr Twin Sister formed in 2008 under the name Twin Sister, releasing two EPs - *Vampires with Dreaming Kids* in 2008, and *Color Your Life* in 2010 - to significant critical acclaim. They released debut LP *In Heaven* (2011) via Domino, and in 2012 their song "Meet the Frownies" was sampled by Kendrick Lamar and Dr Dre on "The Recipe." In 2013 lead singer Andrea Estella was cast in the Veronica Mars movie, with two songs by the band featured on the soundtrack. Having left Domino and changed their name to Mr Twin Sister, the band self-released *Mr Twin Sister* in 2014, acclaimed as an album of the year by Pitchfork, Gorilla vs Bear, and many others. In 2018 the band began steadily releasing new material, including "Echo Arms," their most popular track to date, and *Salt*, their third full length and most diverse release yet.
