

CAROLINE SPENCE

"Her debut for Rounder Records, *Mint Condition* follows *Spades and Roses*—a 2017 release praised by *American Songwriter* as “an album of stunning beauty and lasting impact.” In bringing *Mint Condition* to life, Spence worked with producer Dan Knobler (Lake Street Dive, Erin Rae) and recorded at his Nashville studio Goosehead Palace, landing a guest appearance from Emmylou Harris and enlisting musicians from Spence’s previous projects and live band. “It’s wonderful to step into a room full of people who already know me,” says Spence. “They have this unspoken understanding of my instincts, so it made the whole process really comfortable and collaborative.”
