# ABOUT THE BAND

Copilot is a dynamically fun Rock-Pop band from Boston, MA that was formed in 2018. Maggie Hall, Ry McDonald, Jake Machell, Dylan Allwine, Austin Beveridge, and Jack Snow met between high school/college in Massachusetts and Vermont, often crossing paths while performing in their own musical projects. After coming together for an unplanned house party performance, the group decided to team up and ride together.

The powerful triage of singers drive the band's sound. Maggie, Ry, & Jake's unique voices create a blend of harmonies with depth & character that propels an electric live performance. The always oscillating 3 lead singers allow Copilot to travel all over the emotional spectrum, creating a myriad of musical ideas. The group's sound is centered by the rhythm section of Bev (bass), Dylan (drums) and lead guitarist, Jack. The backing trio provides Copilot with an upbeat bounce & steady groove that locks in the band's signature retro rock-pop style.
